Portfolio   Github   LinkedIn

SUMMARY

A dynamic full-stack web developer is proficient in JavaScript and the MERN stack (MongoDB, Express.js, React.js, Node.js). Adept at leveraging Generative AI for innovative solutions and mastering new tech quickly. Committed to collaborative development and enhancing software quality with efficient workflows.

PROJECTS

Tagly - Social Media App

JavaScript | React | Node | Express | MongoDB | Tailwind CSS | RESTful APIs
- Built user authentication, profile management, post creation, and follow/unfollow features.
- Enabled real-time interactions like commenting, editing, and deleting posts.
- Designed a responsive UI with React and Tailwind CSS.

Croma.com (Ecommerce) - Clone

JavaScript | React | Node | Express | MongoDB | RESTful APIs
- Developed user authentication with OTP-based login.
- Ensured responsive design across all device types.
- Implemented cart functionality with backend integration using Node.js and MongoDB.

Ecommerce Project

JavaScript | React | RESTful APIs | HTML5 | CSS3
- Designed and implemented a responsive e-commerce site using React.js and Chakra UI.
- Integrated RESTful APIs for real-time data updates.
- Implemented Dark/Light Mode and user authentication features.
